FOR IMMEDIATE RELEASE

16 February 2008

### **Conscious Dining • The Garden at The Sentosa**

Nestled next to Spa Botanica within The Sentosa Resort & Spa, an all-new restaurant, The Garden offers an idyllic respite where diners can indulge in contemporary cuisine, some of which are familiar favourites with an innovative twist.

Emphasizing on the concept of *Conscious Dining*, ingredients are specially sourced from organic or bio-dynamic farms where possible and when available, and prepared by the chefs with a gentle hand to ensure that the premium fresh produce retain its natural goodness and flavours. This concept carries through with vegetarian choices and a nutritional guide which promotes a more 'conscious' dining approach as well.

Located in a charming conservation building, The Garden presents a bright and airy dining space in soothing earthy hues and dotted with bold splashes of colour. Alfresco seating by the pool offers an alternative tranquil setting.

### **About The Sentosa Resort & Spa**

The Sentosa Resort & Spa and Spa Botanica are owned by Beaufort Hotels, and managed by HKR Asia Pacific Pte Ltd, a wholly owned subsidiary of Hong Kong public listed company, HKR International Ltd (HKRI). HKRI also owns and manages The Sukhothai Bangkok.
